Jakob Edeus

Frontend developer with an eye for UX/UI

⚒ Skills

HTML

CSS/SASS

Javascript

JQuery

React

Typescript

Angular

GIT

DevOps

Agile Methologies

UI design

UX / Usability

HCI

🏢 Working Experience

Front end developer Intern   *2020 Januari - April*

Limetta AB

During this internship I was given more responsibility in projects which involved direct comunication with clients, working together in a team with people in different roles and coding challenging designs for web and mobile apps.

Front end developer Intern   *2019 Setember - November*

Limetta AB

My first internship meant learning how the industry works, how life is at an agency and what my role is. I was involved in smaller projects and learnt alot about the process of a project from start to finish.

UI/UX designer   *2018 Januari - Mars*

Agrando AS

As a UI/UX designer at Agrando, I created new design for existing products, for web and apps. Along with stakeholders and developers, we worked in sprints.

🎓 Education

Front end developer - Higher vocational education   *2018-2020*

Medieinstitutet, Stockholm

Courses: HTML/CSS, Agile Methologies, Dynamic web development, Javascript, UX/Usability. Practical education with relevant courses based on the market's needs.

Interaction design - Bachelor's degree   *2017 - 2014*

Linnaeus university, Kalmar

Courses: Design and concept visualisation, Design av graphic interfaces, Object-oriented design. Most courses were 50% theory and 50% applying theory in actual projects.

Media program with specialisation in graphic communication   *2012 - 2009*
